

IN THE CLAIMS

Please amend the claims as follows:

Claim 1 (Currently Amended): An envelope for recovering a used recording liquid cartridge, comprising:

an inner layer made of material capable of absorbing recording liquid; and
an outer layer made of water resistant material, wherein
the material capable of absorbing recording liquid is tissue paper,
the water resistant material is polyethylene, and
the inner layer and the outer layer are heat-sealed to achieve continuous integration
over the whole envelope without space between the inner layer and the outer layer.

Claim 2 (Currently Amended): An envelope for recovering a used recording liquid cartridge, comprising:

an inner layer made of material capable of absorbing recording liquid;
a middle layer made of water resistant material; and
an outer layer made of writable material, wherein
the material capable of absorbing recording liquid is tissue paper,
the water resistant material is polyethylene,
the inner layer and the middle layer are heat-sealed to achieve continuous integration
over the whole envelope without space between the inner layer and the middle layer, and
the outer layer is stuck to the middle layer.

Claim 3 (Canceled).
